

The Albuquerque/Bernalillo County Library System presents

ROSETTA STONE LANGUAGE LIBRARY

The Rosetta Stone Language Library reinforces your natural language learning ability by directly associating new or difficult words with familiar objects and ideas.

Thousands of carefully selected pictures convey the meaning; native speakers say the words with or without text. The student responds and the computer gives instantaneous feedback, confirming the comprehension that has taken place.

Exercises reinforce any of the four language skills: Reading Comprehension, Listening Comprehension, Speaking and Writing. Students can study the material at their own pace, using exercises suited to their own learning styles and objectives.
